"Within these stones and bricks, healing is to be administered, and no less important, human relationships developed between teachers and students and between students and patients. If ever patients are regarded as clinical material, this building will have been degraded and its use corrupted. We must never forget that the word patient comes from the Latin root which means to suffer. Clinical material does not suffer. Human beings do."

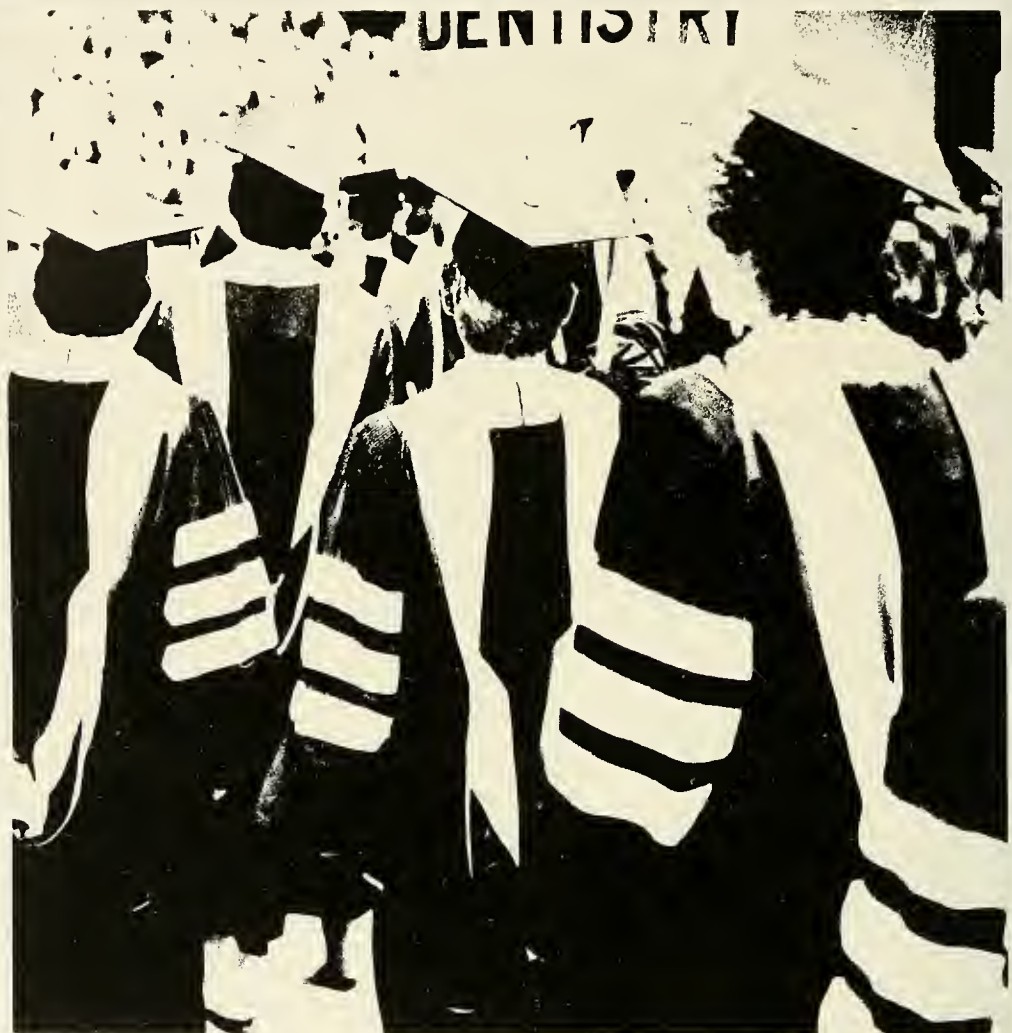

Dr. Louis L. Kaplan

SENIORS

... The profession for which you are preparing is honourable; it is useful; it is one that will enable you to be serviceable to your fellows, — to relieve much of human pain, and to mitigate many mortal woes.

— Dr. Chapin A. Harris,
Dean
Introductory Lecture

IN MEMORIAM

STEVEN SOKOL
1956-1982

There is a rare breed of people whose achievement in the face of overwhelming adversity makes the world a better place to live. Steve Sokol was one of these people. His unwavering dedication, fortitude and care touched all those who knew him. His patients loved him. His unselfishness served as an inspiration for us all. His compassion for others rekindled and restored one's faith in our fellow man. Steve's spirit will always be with us.

After ten years as an "experimental" program, the Accelerated Professional Training Program comes to an end this year with the graduation of the Class of 1983. Each year APT selected ten students from the incoming freshman class and accelerated their professional training in a curriculum unique among all other three year and four year programs in the country.

Originally planned by an oral pathologist, an anatomist, and a diagnostician, APT was designed to train competent clinical practitioners in three calendar years. This time reduction was accomplished by selecting course material and laboratory exercises for their clinical relevancy and applicability. An interdisciplinary approach, close faculty support, and the elimination of needlessly repetitive material permitted an early introduction to clinic during the first year. Under the direction of a small core faculty who each covered many disciplines, diagnosis, treatment planning, and delivery of care were accomplished in a straight-forward, comprehensive, and coordinated manner.

Further reduction of time was achieved through reliance upon the student for much of the "bookwork" and preparation. Rather than didactic lectures, classes were seminar-discussion format with the information already absorbed by the student after voluminous reading and studying. This spirit of self-reliance was a basic tenet upon which the program was founded. Individual progress was continually monitored through clinical evaluation and oral and essay examinations. The small class size and core faculty permitted highly individualized instruction, the management of challenging cases, and efficient delivery of care.

The APT program ends this year due to a variety of factors, most notably the severance of capitation payments to dental schools in the wake of declining admissions and a failing economy. In closing the program, one also recognizes the successful education of more than 80 dentists through this unique approach. In the past, APT has served as a workshop in dental education where ideas were implemented and studied on a small scale basis. It is expected that dental education at BCDS will benefit through the incorporation of some of the principles and philosophies of APT in the newly revised curriculum. Hopefully the spirit of optimism and experimentation will persist, for these are vital factors in the attempts to continually improve dental education.

HONORARY CLASS OFFICERS

JAMES C. GINGELL

GEORGE C. WHITAKER

This year, we would like to honor two clinical instructors who have supported us to the end, Dr. Jim Gingell and Dr. George Whitaker. Each, in his own way, has succeeded in enriching our lives both personally and professionally. In us, they have encouraged individualism and independence as well as stimulated a desire to learn, explore, and accept challenges. Words do not adequately express our gratitude for the way in which each helped us to develop confidence in ourselves and an appreciation for our patients, classmates, and chosen profession. And so, to these two colleagues and friends, we wish the best that life has to offer. As we go our separate ways, we leave with fond memories and the hopes that our paths will cross again.

The SNDA was founded in 1974 because other organizations were not meeting the needs of minority dental students. The objectives of this organization are as follows:

To promote and encourage an increase in minority enrollment in all dental schools.

To promote and encourage an increase in the improvement of dental health care delivery to all disadvantaged people.

To provide time and skill in assisting those programs within the community which require some measure of expertise.

To contribute to the welfare of dental students.

To educate and involve its members in the social, moral and ethical obligations of the profession of dentistry.

To promote a viable academic and social environment which is conducive to the mental health of minority dental students everywhere.

OFFICERS

Mike Lamb
president

Robert Minch
vice president

Donna Blount
secretary-treasurer

The Gorgas Odontological Honor Society was organized in 1915 as a student organization, and later it was changed to an honorary dental student society with scholarship as a basis for admission. The society is named after Doctor Ferdinand J. Gorgas, a pioneer in dental education and a great contributor to dental literature; it was with the idea of perpetuating his name that the society adopted it.

The society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of junior and senior members whose scholastic endeavors have placed them in at least the top third of their class.

Alpha Omega enjoyed a stellar year under the leadership of President Bruce Blumenthal. A fruitful Rush, featuring a reception for chapter alumnus and ADA President Burton Press, highlighted the fall season. Tennis, racquetball, and skiing in the winter and an Away Weekend to West Virginia in the spring were also enjoyed by many.

Those supervising the social and academic offerings were Vice-President Charles Steinberg, Treasurer Mark Eisenberg, Secretary Robin Pollack, Assistant Treasurer Scott Lever, Assistant Secretary Richard Kramer, Historian Don Christopher, and Editor Joan Levine.

Fraters Lynne Brodell, Todd Sarubin, Les Sultan, Cindy Miller, Audrey Rosen, Joanne Block, Kurt Linkoff, and Julius Hyatt, all event chairman, orchestrated the various events; their splendid work is appreciated by all.

Psi Omega is a national dental fraternity and BCDS was the founding chapter. Its emphasis is to provide a social outlet from the rigors and stresses of dental school through organized trips and functions. Members include men and women from all classes as well as dental hygiene students.

This school year was extremely productive with impressive contributions from many members to provide numerous first-class events. The fall slate included a crab feast, water skiing, kyaking, horseback riding, a sailing party, a formal dinner dance, a school-wide Halloween party in conjunction with Alpha Omega, and a Christmas party with a new wave santa. Equally as eventful was the spring calendar: ice skating, a formal initiation and German beer blast at Blob's Park, racquetball, a dinner meeting, a rafting weekend, sky diving, softball challenges, a senior banquet and a week in Nags Head, N.C.

The bulletin board is always alive with notices of events and incriminating pictures of preceding activities. Every effort is made to provide the fun for anyone willing to take advantage of it. In short, good times are had by all.

The ETA Chapter of the Xi Psi Phi Dental Fraternity, chartered who knows when, underwent a major revival in 1982. It effectively maintains the guise of a social organization while actually serving strictly a scholastic role to its members. ZIP, often secretive about its activities, goes to great extents to take misleading photographs so as to deceive the student body into believing they consume large quantities of alcoholic beverages and have a good time.

While the rest of BCDS thought the ZIPPERS were enjoying themselves

throughout the year at Crab Feasts, Bowling, Blast games and the infamous Gainesburger Poker Night, they were actually participating in advanced education concerning the most current of topics. The highlight of the year was the "Ski Trip" to Camelback where actually the eager dental devotees locked themselves inside their mountain retreat for the Stomatognathic System Symposium that included reading the complete works of Passelt.

Warm beer and cold pizza is of no concern when academia is at hand — don't let the pictures fool you.

The American Association of Women Dentists was established as a national organization in 1921 to encourage women in the pursuit of a dental career. This is the first year for a chartered student chapter at BCDS. Our members have enjoyed a variety of activities this year including chartering of the chapter, welcome gifts to first-year dental students, an open house for Maryland students and dentists, participation in the regional meeting at Georgetown Dental School, several fund raisers, speakers on dentistry in the Caribbean Islands, and educational opportunities beyond dental school.

THE MARYLAND PROBE

The Probe would like to thank all of its contributors for making this publication both interesting and useful to the students at BCDS. For the upcoming year, the Probe is planning to adopt a more newspaper-like format with photographs and such added attractions as monthly crossword puzzles. Interested students and faculty are invited to help in the continued growth of the Probe.
